

FIRM INTRODUCTION

Our Story

G. Holmes Bell, IV, PE
CEO & Chairman

For more than six decades, we at Hussey Gay Bell have remained steadfast in our commitment to providing an enduring legacy of excellence in design and service in the fields of engineering, architecture and surveying.

Our dedication to the firm's core values of innovation, initiation of ideas and collaboration are exemplified through our intense focus on client relations and production of award-winning work. Yet, the true essence of Hussey Gay Bell's strength lies within the talented group of professionals who work tirelessly on our clients' behalf. We at Hussey Gay Bell understand our duty to perform at the highest levels of standards, both professionally and civically, to enhance the quality of life within all the communities we serve as evidenced by our established history of involvement with civic and charitable organizations and service leadership on industry and community boards. This commitment to excellence extends to every client and to every community we serve. So, here's to the next 60 years.

Planning and designing for current and future extraordinary places and properties is a long-term commitment.

- Ability to assist the client with master planning and design of the infrastructure needs for large scale developments.
- Relationships and knowledge to provide coordination and guidance to clients for water and sewer strategies and master planning to serve large communities with a range of amenities.
- Experience and knowledge with coastal and lowlands drainage system master planning and design to meet the special requirements of sensitive coastal properties.
- Experience with marsh front and oceanfront projects, and development of marine and amenity improvements located on riverfront properties.
- Proven track record on master planning and design for development in over 10 large scale PUD and master planned communities totaling over 8,000 acres of coastal and near-coastal development.
